About us

Developing and inspiring the next generation of leaders, equipped to manage complex projects and drive positive change

We are a specialist provider of Project Management and Project Control apprenticeships. Our courses will train and upskill your workforce with the expert knowledge and skills required to lead complex projects and drive business growth successfully.

Our training programmes deliver quick results, supporting employers to increase productivity and to attract and retain high calibre staff. These programmes provide a fast track to degree and apprenticeship qualifications which lead to outstanding opportunities for personal and career progression.

LMC is part of the ProjCon group, an internationally renowned organisation specialising in project management consultancy and solutions. Learners benefit from this wider group specialism in terms of very up-to-date sector exposure and expertise of staff. As part of the ProjCon group, LMC students have unique access to industry expertise, resources and networking events both nationally and internationally which enhance their experience and accelerate learning.

What Ofsted say about LMC

The knowledge, skills and behaviours apprentices develop are new and substantial.' 'Apprentices have a positive and purposeful attitude to their training. Apprentices quickly become more confident in their roles and take on new responsibilities at work and employers value the skills that apprentices develop and bring to the workplace'. **(Ofsted, Full Inspection Report, March 2024)**

Apprenticeship Overview

OUR APPRENTICESHIPS

Delivery approach

At LMC, we have used our specialist skills in Project Controls and management to devise an advanced training schedule and delivery system designed to work around employers' requirements.

We set out to develop our students' competencies by giving them access to an online learning environment that encourages skill-building, information retention and transferable experience into the workplace.

Courses are also delivered in online classrooms, which include technical, occupational and software training.

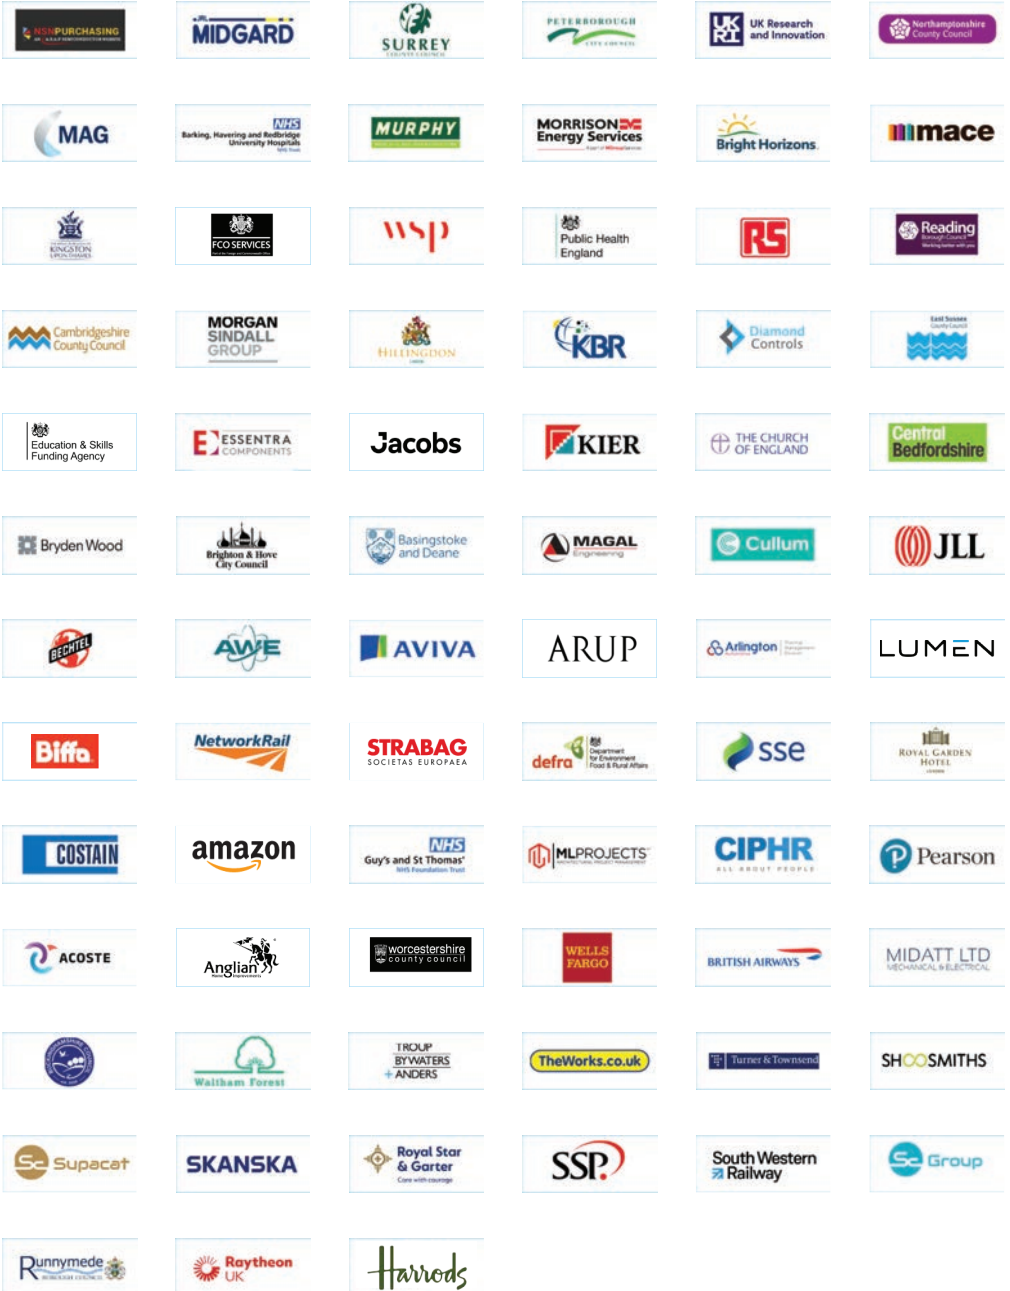

Key Features

All of our apprenticeship programmes offer:

- A dedicated tutor to support students throughout the course
- Flexible and innovative training methods geared towards different learning styles
- Continuous access to learning via online learning platforms
- Tuition from highly experienced specialists
- An NUS Apprenticeship Extra card, for access to discounts and online offers
